EXPERIENCE

KAMBOZ INFOTECH PVT. LTD. | Founder and Developer

Nov 2022 – Aug 2024 | Karnal, Haryana, IN

- Launched and Managed Multiple Apps:
  Kitchen Care - A grocery delivery platform.
  HR Roadways – A live bus tracking system operational in select districts of Haryana.
  UPI2Cash – An instant UPI-to-Cash and Cash-to-Digital conversion platform for emergencies.
- Technical Leadership and Development: Led end-to-end development, coding, and deployment of all projects, ensuring scalability and user-friendly interfaces.
- **Cybersecurity Expertise**: Applied security best practices to protect user data, leveraging experience from multiple bug bounty recognitions and Wall of Fame mentions from organizations like Xiaomi, ShopClues, government agencies, and crypto startups.

PROJECTS

KITCHEN CARE | Grocery Delivery App

- A user-friendly grocery shopping Android app enabling customers to easily purchase their daily grocery needs.
- Built using Java, MySQL, XML and integrated APIs for seamless functionality.

HR ROADWAYS | Bus location tracking app

- A real-time government and private bus tracking app that allows users to track bus routes and live locations to reach their destination.
- Integrated GPS access from bus companies to display real-time bus movement. Developed using PHP (APIs), Java, XML, and MySQL for seamless tracking and user experience.

UPI2CASH | UPI-to-Cash and Cash-to-UPI app

- A peer-to-peer (P2P) UPI-to-Cash and Cash-to-Digital conversion app for instant transactions during emergencies.
- Developed using PHP (backend), MySQL, Java (Android development), XML, and integrated APIs for secure and efficient transactions.

TRUELITE | Lite version of Truecaller

- A compact alternative to Truecaller, designed for low-spec devices that experience lag or hanging issues with Truecaller.
- Build using Java, XML and used Turecaller APIs to get the data.
